It is all done by the twist of the dist

^mThe Angels Whisper

A baby was sleeping its mother was weeping
For her husband was far on the wild raging sea
And the tempest was swelling
Round the fishermen's dwelling
And she cried O must darling oh come back to me

Her beads while she mumbled
The baby still slumbered
And smiled in her face as she bended her knee
O blessed be that warning
My child thy sleep adorning
For I know that the angels are whispering to thee

And while they are keeping
Bright watch o'er thy slapping
I pray to them softly my baby with me
And say though wouldst Father
They'd watch o'er thy father
For I know that the angels are whispering to thee

The dawn of the morning
Saw Dermot returning
And the wife kept with joy her babe father to see
And closely caressing
Her child with a blessing
Said I knew that the angels were whispering to thee

The Brave Old Oak

A song of the oak the brave old oak
Who hath ruled in the green Wood long
Here's health and renown to his broad green crown
And his fifty arms so strong
There is fear in his frown When the sun goes down
And the fire in the hearth fades out
And he sheweth his might on a wild midnight
When storms thro his branches shout
Then sing to the oak the brave old oak
Who hath ruled in the Wood so long
And still flourish he a hale green tree
When a hundred years are gone

Dear Mary Ann.

April 10th 1858

Dear

Dear Sister

No. 1/2 eventful Years have rolled by. Since we have enjoyed each others society, but still You have been ever mingled with my thoughts. During the time I have been to the cold dreary and miserable regions of the Polar Sea, also to the Verdant fruitful & beautiful Coral bounded isles of the mild & sunny Pacific, have seen and mingled with various nations, & partaken of their hospitality but still when thousands of miles from home and see everything pertaining to it, my mind has wandered back to the old mansion and I have thought and meditated upon the scenes circled there with happiness & pleasure wishing and longing for time in its hurried march to place me once more within its walls.

You remember still our last and hurried farewell also the manner & way in which I left home, but that alwin Providence their watches over all things has safely guided me ~~safely~~ back again. you will now please dear Sister to accept this small & trifling gift with a Brothers love & well wishes for your future prosperity & happiness. Hoping when we shall ^{be} on the same ^{be} here, that we shall all meet there parting moments are known no more.

Yours Brother
Geo. H. Williams

Home.

How many sweet endearing ties lie centered there
I care not whether it be a native of one of the far
distant isles of the Pacific or of the greatest
metropolis in the union when a wanderer from
home his happiest moments are passed in
meditating on the place of his youthful abode
friends kindred and every thing pertaining to
happiness are encircled there. pleasure gaiety
and happiness are to be found elsewhere but
since when associated all there is something
which calls our memory back to youthful scenes
and we meditate upon the spot with feelings of
pleasure and happiness. And we live in exultation
and hopes of visiting it again. And when returning
~~again~~ to the spot. All our thoughts are absorbed
in that little ^{Situated on the banks of the Merrimack} village with the jangling mill
flowing fresh and the road birds uttering ~~their~~
~~its~~ the contemplation of wandering around
and mingling with those which were our compan-
ions in youth. And viewing the scenes of our childhood
I care not whether home be ever so weak or lowly
it has entertainments there which are not to be elsewhere
enjoyed though we wander among splendor and
gaiety in all its forms.

Some

How many sweet endearing ties lie centered there. I care
not how then I be a native of one of the far distant
isles of the Pacific or of the greater Metropolis of the
Union. When a wanderer from home his happiest
moments are passed in meditating on the place of his
youthful abode. friends kindred and every thing
pertaining to happiness encircled there pleasure
gusto and happiness are to found elsewhere but
Oh! When amidst all these there is something
which calls our memory back to youthful scenes
and we meditate upon the spot with feelings
of pleasure and happiness and we live in
expectation and hopes of visiting it again and
then returning to the spot all our thoughts
are absorbed in the contemplation of wandering
around and mingling with those which were our
companions in youth and viewing the scenes of
our childhood. I care not whether home be ever so
meek and lowly it has endowments there which
are not to be found elsewhere enjoyed though the
wanderer among splendor and grandeur in all its forms
